

M.S.A.D. #46

POLICY Learning Results **CODE** ADF

The MSAD #46 Board of Directors hereby adopts a system of learning results. The MSAD #46 Learning Results system is intended to serve as a foundation for education reform and to promote and provide assessment of student learning, accountability and equity. The Board recognizes that the legislative intent of the State of Maine Learning Results system is to provide children with schools that reflect high expectations and create conditions where these expectations can be met.

The Board understands that implementation of a learning results system has broad implications for the school unit, including curriculum, budget, professional development, student assessment, professional evaluation, and graduation requirements. Therefore, the Board is committed to examining its policies to ensure that they are consistent with the intent and goals of its learning results system. This will require a concerted and coordinated effort involving the Board, the Superintendent, administrators, teachers, parents, students and the community.

The Board directs the Superintendent to develop a plan and timeline for implementing the MSAD #46 Learning Results system and any appropriate administrative procedures. The Board further directs the Superintendent to report to the Board semi-annually on progress toward implementing the learning results system.
